Retail Price List

(prices subject to change without notice)

To Our Valued Customers

This price book covers the vehicles for which we supply a range of ARB manufactured products which includes our bull bars.

There are vehicles for which, whilst we have not as yet developed a bull bar, we still have a large range of accessories available such as lights, side steps, tow bars, Air Lockers, snorkels etc.

We are continually sourcing and designing new products to add to our range, so if your vehicle or a particular accessory is not listed here please enquire with one of our sales staff... we may have just what you're after.

Please note that whilst every effort is made to ensure the information contained in this book is accurate, ARB reserves the right to amend printing errors or incorrect information. ARB also reserves the right to change prices without notification.

(E & OE) Errors and Omissions Excepted. This price and application list is lovingly crafted by a dedicated team of specialists. Inevitably, human errors will occur and we will always be fair and reasonable if this results in a problem.

Vehicle Compatibility

Please note that information contained in this guide is based on manufacturers' specifications at the time of print. Changes to vehicles or products may occur after this time that may render a certain accessory unsuitable for a particular application.

Vehicle model dates contained in this guide are indicative, so please exercise caution when ordering accessories if your vehicle's build date falls close to a model change date. If in doubt, please consult your ARB distributor, who can assist with determining the correct products for a particular vehicle.

The bull bars detailed in this guide are fully compatible with air bag systems (when fitted), unless otherwise stated. For information on the technology behind our bull bars, and how air bag compatibility is achieved, please refer to the ARB catalogue.

Removal Of Parts From Your Vehicle

Please note that in some cases, it may be necessary to remove parts from your vehicle in order to carry out the fitment of replacement parts and accessories.

In most cases, removal of these parts unavoidably destroys them and renders them unsuitable for re-use.

Original parts removed from your vehicle to allow for installation of replacement parts and accessories are disposed of on the same day as installation.

We are sorry but we are unable to store such parts on your behalf. If you wish to retain these parts, please inform us prior to the commencement of any work being carried out on your vehicle.

Please bear in mind that in most cases the removed parts are not suitable for transport inside your vehicle due to their size, nature and condition. Their loading and transport will be your responsibility in such circumstances.

SUPPLEMENTARY CHARGES

FREIGHT CHARGES

Prices shown in this book do not include any allowance for the cost of freight. In some states, territories and rural areas some additional freight costs can be expected.

GST

Prices shown in this book are inclusive of GST.

FITTING CHARGES

Fitting charges listed in this book are based on installation of accessories on brand new, unmodified vehicles using standard ARB supplied components such as switches and brackets etc.

Installation in older vehicles and/or vehicles with other aftermarket accessories, conversions or modifications which require additional fitment, labour will incur additional charges.

Fitting charges are only applicable when the product is purchased and fitted at the same location and time. Fitting of any customer supplied product is chargeable on an hourly rate basis.

We suggest you discuss any such issues with our sales staff when placing your order.

COLOUR CO-ORDINATION CHARGES

All ARB manufactured Protection Equipment is finished to the highest standard.

Once fully assembled our Protection Equipment is shot blasted, phosphate washed and then oven dried before a specially formulated, hard wearing, polyester powder is electrostatically sprayed and subsequently oven baked. Commercial Barwork is not designed to be colour coded, though some exceptions do apply.

However, the choice is yours. If you would prefer to have the accessories coloured, a two-pack paint system is applied giving the accessories a very high quality, gloss finish. It is preparation such as this which will ensure our Protection Equipment will retain its visual appeal on your vehicle for many years.

ARB Canopies featuring a grained exterior come in a natural white finish. Colour coding is optional on these models. Smooth exterior and Sprint canopies must be colour coded.

Important Note: The following charges cover 90% of all plain and metallic paint finishes. For harlequin colours such as Mitsubishi A67, the cost to ARB is substantial and therefore double charges will apply, i.e. Bull Bar or Canopy \$440.00

Bull Bars/Sahara Bars	220.00	ARB Cover Panels - Each	30.00
Nudge Bars	99.00	ARB Wheel Carriers - Each	70.00
Driving Lights - Pair	121.00	ARB Jerry Can Holders - Each	70.00
Flares (4) Lip Flare/Duraflare Style	220.00	*Kaymar Rear Step Tow Bars	363.00
Flares (4) Body Flare/Box Style	220.00	Canopies - Grained Exterior	220.00
Side Rails - Pair	220.00	Canopies - Smooth Exterior	254.00
Protection Steps - Pair	110.00	Sprint Canopy	254.00
Front Rails - Pair	99.00	Canopy Vents - Each	30.00
ARB Rear Step Tow Bars	220.00		

ARB utilises one of the finest paint systems available. However, due to variations in factory applied paint colours we are unable to guarantee a 100% match. Please check with our sales staff. For some vehicle models we may recommend a contrast colour be supplied.

*Colour Co-ordination of Kaymar products is only available for their Rear Step Tow Bars.

Rear Wheel Carriers for rear step tow bars and for standard bumpers are only available in the standard Kaymar finish.

SUPPLEMENTARY CHARGES

MISCELLANEOUS INSTALLATION AND SERVICE CHARGES

Labour charges indicated are based on installation of accessories on brand new, unmodified vehicles using standard ARB supplied components such as switches and brackets etc. The installation charges DO NOT include the cost of the accessory, service parts or removal and replacement (R&R) of a winch.

Wherever possible we aim to provide a fixed price installation cost, however certain accessories may require additional labour. Winch R&R charges or accessory installation in vehicles with other aftermarket accessories, conversions or modifications, which require additional fitment labour will incur additional charges at \$90/hr. Fitting of any customer supplied product is chargeable on an hourly rate basis. Consult your ARB workshop for vehicle specific installation requirements.

Fitting charges are only applicable when the product is purchased and fitted at the same location and time. Unless otherwise stated the price indicated includes workshop ancillary items e.g. bolts/nuts/screws, cable/cable ties/conduit/fuse, lubricants and oil disposal.

³Please Note: This charge is in addition to the normal fitting cost for the winch bar. If a winch is fitted to a bar that has already been installed on a vehicle, the bar fitting cost is still incurred as removal and refitting of the bar is generally necessary. Important Note: Due to the unique inboard positioning of the low beam headlamps on this vehicle, on VX, ZR and Kakadu Models with HID (Xenon) headlamps some minor shadowing can be expected from the bull bar and other accessories. This does not affect the headlight performance or compliance with ADRs.			
ARB recommends fitting the Sahara style bar to VX, ZR and Kakadu Models.			
ZR and Kakadu Models can also have an optional centre grille located camera. Vision from this camera will unavoidably be obstructed in some cases where bars and accessories are installed.			
The radar anti collision system option in Kakadu and ZR is also located in the grille badge. Structures forward of this device may affect the operation of this device.
